COSO

BARRIER-FREE BATHROOM AND PUBLIC SPACES COMPREHENSIVE SOLUTIONS

/ Foreword

COSO Bathroom reshapes healthy and caring living with the philosophy of accessibility. We believe that genuine care begins with the freedom of movement.

As a participating contributor to Guidelines for Age-Friendly Design of Home Products (GB/T 45272-25), we go beyond age-friendly design and focus on universal accessibility. By eliminating spatial barriers, adopting smart sensor technology and gentle layouts, COSO Bathroom enables every user to enjoy a safe, independent and dignified bathroom experience. Starting from details and empowered by technology, we strive to make every daily movement – standing up, turning around, bathing and using the toilet – effortless. Here, safety is not a restriction, but the foundation of comfort and ease. COSO Bathroom provides a friendlier and more sustainable solution for an accessible daily life.

ELDERLY-FRIENDLY BATHROOM SPACE SOLUTION DESIGN AND LAYOUT

UC6054　2-hole basin faucet

Material: Brass
Color: Chrome

KEY SELLING POINTS

- 1、Separate hot and cold water hole design with dual-spool precise control system for effortless water temperature adjustment.
- 2、Made of international standard H59-1 copper via CNC machining, low-lead and eco-friendly.
- 3、Multi-layer electroplating process for rust and corrosion resistance.
- 4、Split design enables flexible and convenient installation, suitable for diverse space layouts.

GC8038　Autofaucet

Material: Brass
Color: Chrome

KEY SELLING POINTS

- 1、Precise infrared sensor for automatic on/off water flow, no manual operation needed, highly efficient and water-saving.
- 2、Temperature control handle design for accurate adjustment of hot and cold water temperature.
- 3、Automatic water shut-off after prolonged flow, providing dual protection for added convenience.

NC6059　4-hole bathtub combination

Material:Brass
Color: Chrome

KEY SELLING POINTS

- 1、Split design, no pre-buried water outlet in the wall required; directly installed on the edge of the bathtub, suitable for freestanding bathtubs with strong space adaptability.
- 2、Independent hot and cold handles for separate adjustment of water temperature and flow, intuitive and easy to control.
- 3、Made of international standard H59-1 copper with CNC machining, low-lead and environmentally friendly.

Barrier-free Design of the Shower Area

The thermostatic shower system is selected for the shower area. The built-in thermostatic control system can precisely regulate the water temperature to prevent sudden changes between hot and cold. With independent piano keys, the function keys are clearly distributed, making the operation straightforward at a glance. The shower chair features a user-friendly design. It can not only be folded for storage to save space but is also equipped with a sturdy armrest, providing reliable support for users during showering. This greatly enhances the safety during use, allowing people to enjoy the shower with peace of mind.

Product Introduction

Nanocoated self-cleaning tempered glass surface, effortlessly wiped clean, staying bright and new. Spacious shelving platform for easy access to bath essentials.

Waterfall flow and handheld shower, with two independent piano-key switches for clear, intuitive water mode selection.

Three independent piano-key switches for clear, intuitive water mode selection. S9006 handheld shower with three-function lever switch (rain, massage, rain + massage).

3719 Handheld Shower Holder, adjustable up and down and rotatable for added convenience.

High-precision textured knob for hot and cold water temperature adjustment. Non-slip knob design ensures precise and effortless water flow control.

Anti-twist hose for handheld shower: soft yet durable, featuring a user-friendly 360° anti-twist design at the connection between the hose and the shower head.

IC1893/3719/9006 Two-function Thermostatic Shower

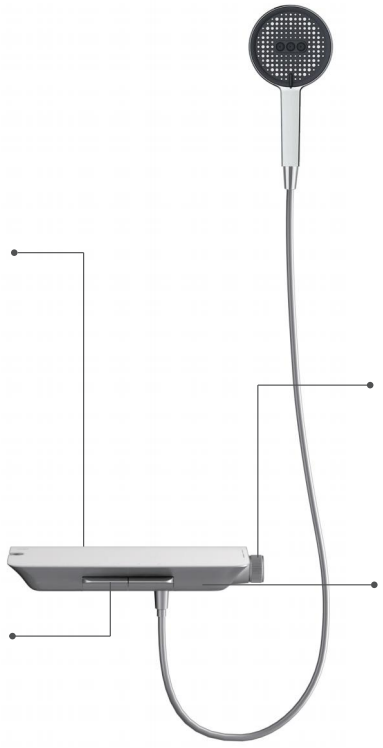

Material: Brass
Color: Chrome
Hand shower size: ϕ120 X 253mm

Product Introduction

Spacious shelving platform for easy access to bath essentials.

High-precision textured knob for hot and cold water temperature adjustment. Non-slip knob design ensures precise and effortless water flow control.

Thermostatic cartridge that balances water pressure and temperature, intelligently maintaining a constant temperature.

Two independent piano-key switches for clear, intuitive water mode selection.

IC1893S Two-function Thermostatic Shower

Material: Brass
Color: Chrome

Product Introduction

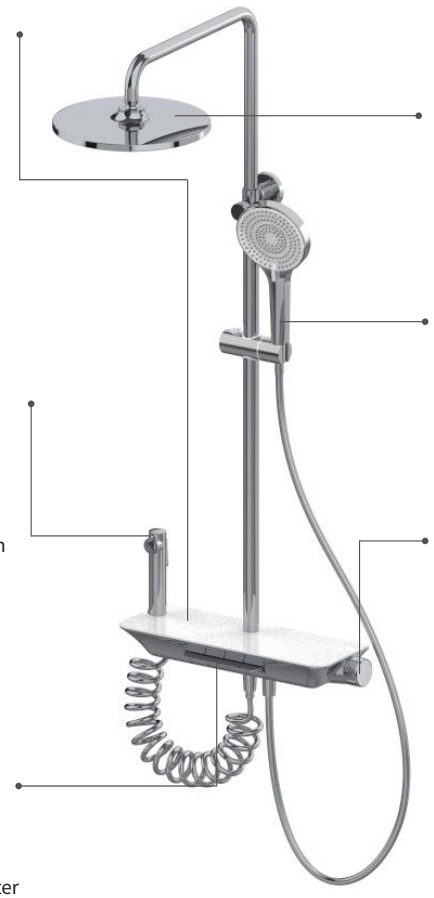

Self-cleaning tempered glass: wipes clean, stays brilliant. 400mm wide shelf for easy access.

High-Pressure Booster Spray Gun, Light Press on the Back Trigger Delivers Powerful Cleaning

Four independent piano-key switches – water modes at a glance.

The easy-clean shower panel features self-cleaning silicone nozzles. A gentle wipe of the fingers clears limescale and debris from the water outlets, preventing clogging.

Triple-Function Handheld Showerhead: Easily cycle through the shower spray, massage spray, and mixed spray modes.

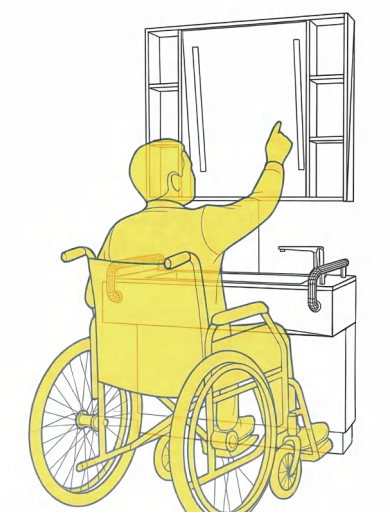

Single, Integrated Control: The thermostatic knob combines water temperature regulation and on/off control in one effortless operation for ultimate convenience and ease of use.

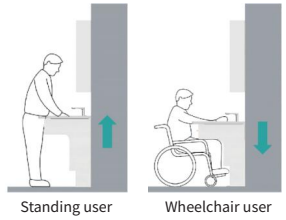

CC1895/1006/9006 Perfect Shower Set

Material: Brass
Color: Chrome

Barrier-free Design of the Washing Area

The wash area is fitted with an adjustable height vanity cabinet, featuring an accessible design that enables the elderly and wheelchair users to adjust the height freely.While maintaining ample storage space, the main cabinet allows easy access for seated or wheelchair users.Anti-slip and antibacterial safety grab bars are installed on both sides of the cabinet to provide stable support for users when sitting up or standing.

Product Introduction

Premium yacht board: waterproof, moisture-resistant, mold-resistant, warp-resistant, crack-resistant, insect-resistant, zero formaldehyde, and recyclable.

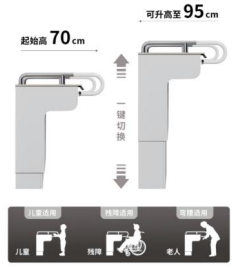

Monochrome LED soft light, smart sensor with gesture control, adjustable mirror angle, dual side compartments – for lighting and storage.

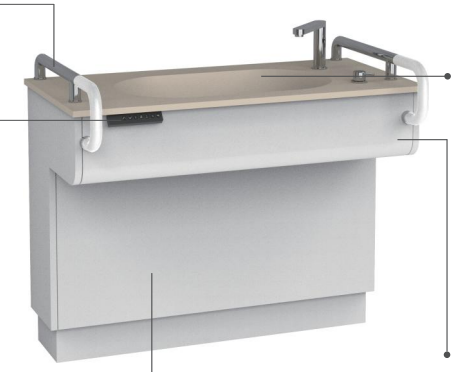

Both sides of the countertop are equipped with grab bars, providing support while washing and allowing temporary hanging of items.

Cabinet with height-adjustable lift function, adaptable to different usage scenarios such as wheelchair sitting, standing, and bending.

The cabinet features a recessed leg space for direct wheelchair access, ensuring a more comfortable seated washing experience.

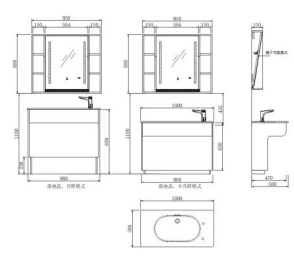

Liujin Stone integrated basin: easy to clean, high hardness, scratch-resistant, and moisture-resistant.

Anti-collision design with smooth, rounded safety corners—a thoughtful little detail.

YP-67872-10 Height-Adjustable Bathroom Vanity

Material: Yacht Board
Color: White
Main cabinet：980 X 650 X 470mm
Countertop：1000 X 535 X 500mm
Mirror cabinet：950 X 800 X 150mm

Product Introduction

Open layered storage keeps everyday toiletries within easy reach, ensuring effortless access even for those with limited mobility.

Cabinet with height-adjustable lift function and a portable remote control, adaptable to different usage scenarios such as wheelchair sitting, standing, and bending.

Smart sensor dimmable mirror with a built-in single-color LED soft light system. Equipped with smart sensor technology, it allows brightness adjustment with a simple wave of the hand. The mirror angle is freely adjustable, meeting a variety of needs from all angles.

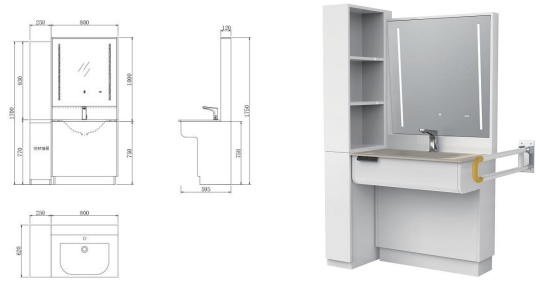

Liujin Stone integrated basin: easy to clean, high hardness, scratch-resistant, and moisture-resistant.

Anti-collision design with smooth, rounded safety corners—a thoughtful little detail.

The cabinet features a recessed leg space for direct wheelchair access, ensuring a more comfortable seated washing experience.

WP-67898 Accessible Bathroom Vanity

Material: Yacht Board
Color: White
Main cabinet：800 X 620 X 750mm
Countertop：800 X 620 X 170mm
Mirror cabinet：800 X 1000 X 120mm
Side Cabinet：1700 X 620 X 250mm

Product Introduction

Premium yacht-grade panel: waterproof, moisture-resistant, mold-resistant, warp-resistant, crack-resistant, insect-resistant, zero formaldehyde, and recyclable.

Side-compartment mirror cabinet design combines washing and storage functions, keeping bathroom essentials neatly organized.

Adjustable mirror angle — meets the varied sightline needs of wheelchair users.

Sturdy armrests on both sides provide reliable support while allowing towels to be hung — convenient and functional.

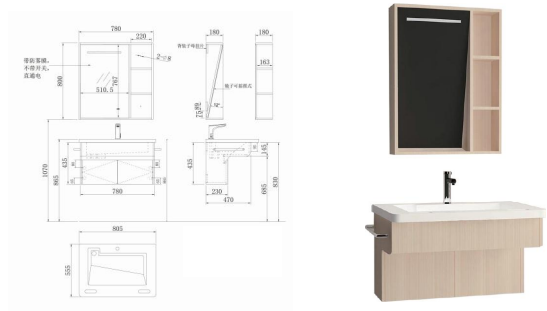

Lower cabinets with designated sections for daily toiletries — convenient access, tidy storage.

Sufficient clearance is reserved beneath the washbasin, allowing wheelchair users to easily approach and enabling accessible washing.

YP-67856W-08 Accessible Bathroom Vanity

Material: Yacht Board
Color: Coral Orange
Main cabinet：780 X 435 X 470mm
Countertop：805 X 145 X 555mm
Mirror cabinet：780 X 800 X 180mm

Barrier-free Design of the Toilet Area

The safety grab bars installed in the toilet area are made of skin-friendly, one-piece molded material for easy gripping.The intelligent toilet features smart sensor functions, including automatic lid opening and foot-activated flushing, to minimize manual operation.It delivers a healthy and comfortable toilet experience for users.

Product Introduction

Self-powered dual-button wall sticker, flexible placement, easy for all ages.

Heated seat ring with 3 adjustable temperature settings — eliminates the cold touch sensation during winter use.

Zero-pressure powerful flush, delivering a new level of efficient water conservation.

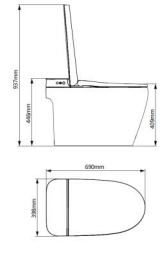

Light-sensing night light – no more fumbling in the dark.

Foot-activated sensor zone enables automatic lid opening, ring opening, and flushing with a simple kick.

TC-2809 Light Smart Toilet

Material: Ceramic
Color: White
Specifications:690 X 398 X 446mm

Product Introduction

One-touch lift control adapts to the habits of seniors and individuals with limited mobility, providing full support during sitting and standing.

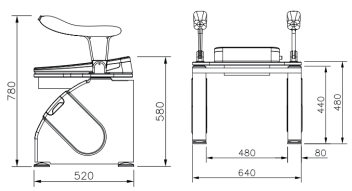

Emergency call button — one-touch activation in emergencies, instantly alerting caregivers to ensure comprehensive safety.

Curved armrests offer comfortable support for leverage, while the seat ring follows the natural curve of the body to enhance overall comfort.

Anti-slip base design ensures the unit remains stable without wobbling. The moisture-resistant material makes it suitable for humid bathroom environments.

TC-38838 Raising Toilet Aid

Color: White
Specifications:690 X 520 X 780mm

TC-1786 Baby care crib

Material: High-density PE
Color: Natural color
Specifications: 820 X 390 X 540mm

KEY SELLING POINTS

- 1.Ergonomic mattress supports baby' s spine; raised guardrails prevent tipping for safer lying.
- 2.Foldable design for compact, space-saving storage.
- 3.High-density PE material – impact-resistant, warp-resistant, and durably stable.

TC-1755 Wall-mounted baby chair

Material: High-density PE
Color: Natural color
Specifications: 235 X 690 X 240mm

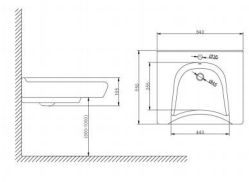

KEY SELLING POINTS

- 1. Wall-mounted installation saves space, making it suitable for small apartments and compact bathrooms.
- 2. Premium sturdy load-bearing structure with wall-mounted design prevents tipping.
- 3. Made of high-density PE material, offering impact resistance and deformation resistance for stable, durable support.

TC-36201 Accessible wall-hung basin

Material: Ceramic
Color: White
Specifications: 640 X 165 X 550mm

KEY SELLING POINTS

- 1. Wall-hung design with open space underneath, allowing easy wheelchair access.
- 2. Smooth, rounded basin rim to prevent bumps and injuries.
- 3. Ceramic glaze surface that wipes clean effortlessly, ensuring hassle-free daily maintenance.

The durable door seal ensures that the walk-in door will not leak.

Walk-in bathtub suitable for the elderly

Barrier-free side-opening design — no step-over required, minimizing slip and impact risks, ensuring a safe, comfortable bathing experience for seniors and those with mobility challenges.

Product Introduction

Acrylic material with a smooth, refined surface — stain-resistant, scratch-resistant, and easy to clean.

Built-in anti-slip base and handrails, combined with a sit-bath design, ensure stability and slip-free bathing throughout.

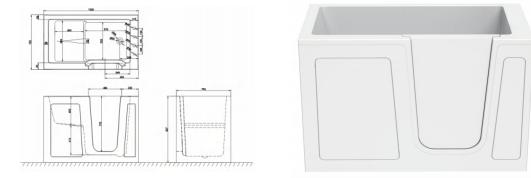

Side-opening walk-in bathtub eliminates the need to step over the side, making it suitable for seniors and those with mobility impairments.

Leak-proof door seal, with fast fill and drain design — reduces waiting time.

BY-37706 Walk-In Elderly Accessible Bathtub

Material:Acrylic
Color: White
Specifications: 1320 X 762 X 927mm

YP-67706 Bathtub Side Cabinet

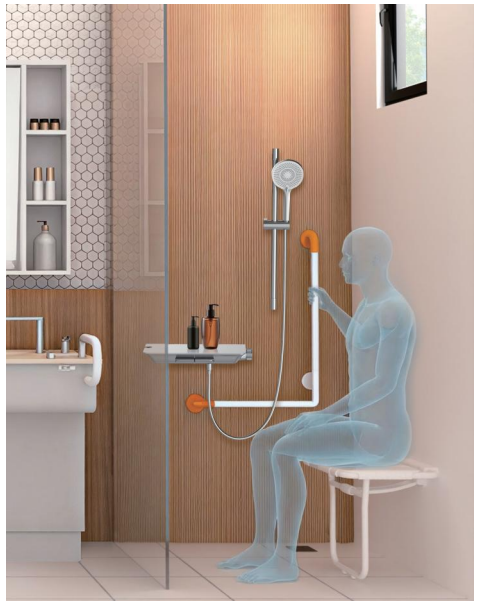

Material: Yacht Board
Color: White

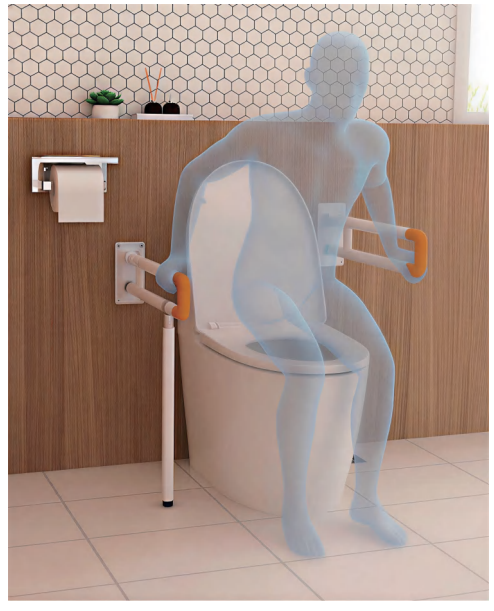

KEY SELLING POINTS

- 1.Premium yacht board: waterproof, moisture-resistant, mold-resistant, warp-resistant, crack-resistant, insect-resistant, zero formaldehyde, and recyclable.
- 2.Open shelving eliminates the need to open and close doors, making items easier to access for the elderly and individuals with limited mobility.
- 3.Compact size fits next to the bathtub without obstructing the bathroom flow, allowing easy wheelchair access.
- 4.Two-column multi-tier shelf design allows bathing supplies and care items to be organized separately for easy access.

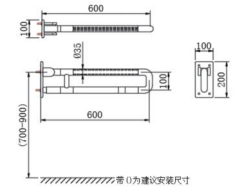

TC-1751C U-Shaped 90°Flip-Up Wall-Mounted Grab Bar

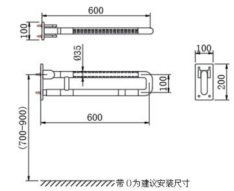

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600mm

TC-1751B U-Shaped 90°Flip-Up Wall-Mounted Grab Bar

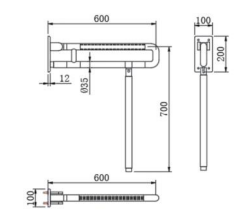

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600mm

TC-1760 U-Shaped 90°Flip-Up Wall-Mounted Grab Bar with Support Rod

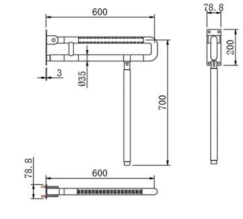

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600mm

TC-1761 U-Shaped 90° Flip-Up Wall-Mounted Grab Bar with Support Rod

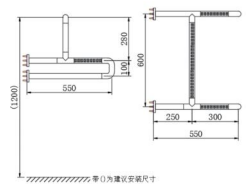

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600mm

TC-1762 Wall-mounted Urinal Grab Bar

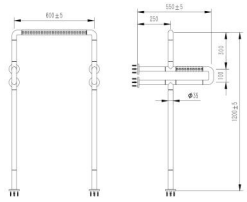

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600 X 550mm

TC-1606B Floor-Standing Urinal Grab Bar

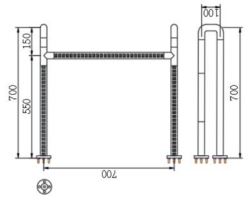

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600 X 1200 X 550mm

TC-1680B Basin Support Rail

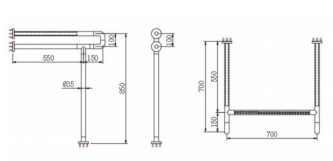

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 700 X 100 X 700mm

TC-1602B Basin Support Rail with Vertical Post

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 700 X 850 X 700mm

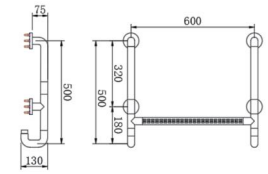

COSO

TC-1682B Basin Support Rail

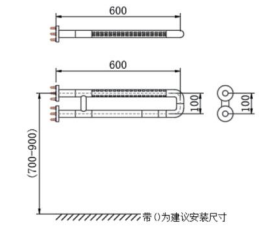

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600 X 130 X 500mm

TC-1766 U-Shaped Wall-Mounted Support Rail

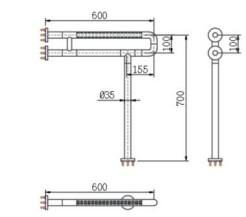

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600 X 100mm

TC-1765 Freestanding U-Shaped Support Frame

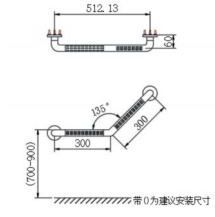

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 600 X 700mm

TC-1763 135° Angled Grab Bar

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 512.13mm

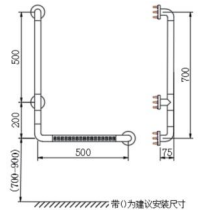

COSO

TC-1611B L-Shaped Armrest

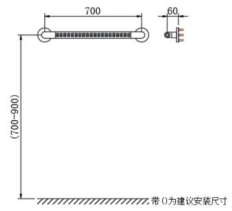

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 500 X 700mm

TC-1752B Straight Grab Bar

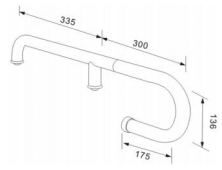

Material: Stainless Steel / Nylon
Color: White / Yellow
Specifications: 300-700mm

TC-1614 Basin Support Rail

Material: Stainless Steel
Color: White
Specifications: 635 X 136mm

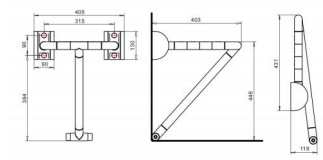

KEY SELLING POINTS

- 1. Dual Protection: Antibacterial nylon outer layer feels skin-friendly and stays warm to the touch, lined with 304 stainless steel tube for high load-bearing capacity without deformation — delivering both safety and comfort.
- 2. Anti-Slip & Antibacterial:Surface features anti-slip particles for enhanced grip; nylon material inhibits bacterial growth and resists wear, ideal for humid bathroom environments.
- 3. Visual Guidance:Classic white and yellow color scheme; yellow end caps provide both anti-slip function and visual guidance, improving visibility and safety.

TC-1605 Flip-up Shower Chair

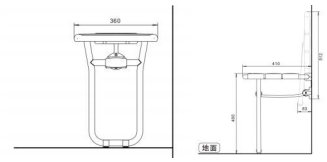

Material: Stainless Steel / Nylon
Color: White
Specifications: 405 X 446 X 403mm

TC-1782 Flip-up Shower Chair

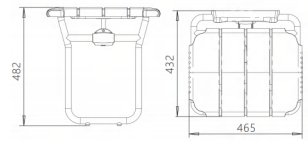

Material: Stainless Steel / Nylon
Color: White
Specifications: 360 X 480 X 410mm

TC-1781 Flip-up Shower Chair

Material: Stainless Steel / Nylon
Color: White
Specifications: 465 X 432 X 482mm

KEY SELLING POINTS

- 1. Skin-Friendly Material — Stays warm to the touch in winter.
- 2. Fold-Up Design — Folds up for storage, freeing up bathroom space.
- 3. Antibacterial Nylon Outer Layer — Inhibits bacterial growth, resists corrosion, and provides sturdy support.

Product Introduction

Fold-up handrail design frees up bathroom space for enhanced accessibility.

The handrail cover is made of PP material with an added antibacterial agent, effectively inhibiting bacterial growth to ensure user health.

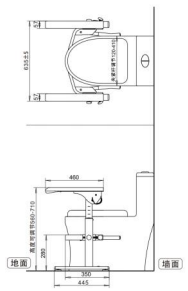

High-strength carbon steel welded construction with a load capacity exceeding 100kg — sturdy, stable, and built to last.

Powder-coated finish resists moisture and rust, making it ideal for humid bathroom environments.

TC-1785 Toilet Grab Bar

Material: Powder-coated Carbon Steel
Color: Yellow
Specifications: 640 X 460 X 565-715mm
(6-position height adjustment)

Product Introduction

The seat and backrest are made of EVA foam pads, offering comfortable support while allowing the skin to breathe.

The handrail is made of antibacterial nylon — clean and hygienic.

Six-level leg adjustment with a range of 0–100 mm to accommodate users of different heights.

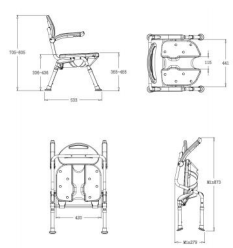

The seat and backrest are made of HDPE blow-molded material, providing comfortable support while allowing the skin to breathe.

Armrests can be flipped back individually or simultaneously; seat folds with one-touch operation — convenient storage with minimal footprint.

The seat features a contoured opening for easier perineal cleaning — suitable for both rehabilitation and daily bathroom use.

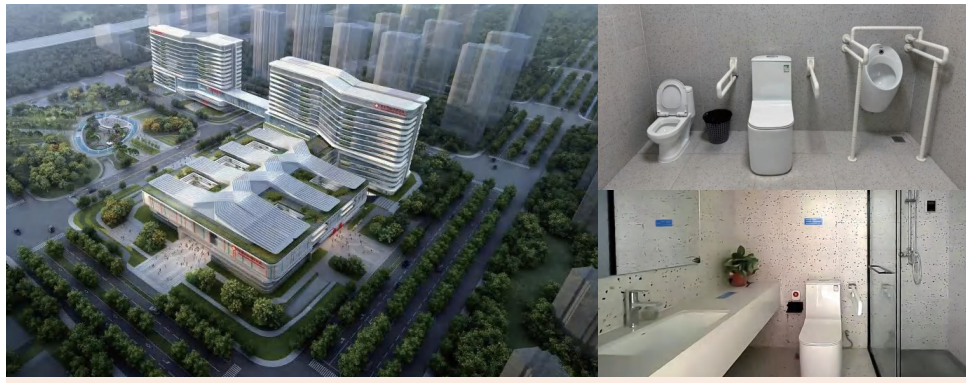

TC-1783 Shower Chair

Material: Aluminum Alloy + Nylon
Color: Yellow
Specifications: 420 X 533 X 705-805mm

REPRESENTIVE PROJECTS (PARTIAL)

DINGJIAZHUANG DISTRICT OF NANJING MATERNAL AND CHILD HEALTH HOSPITAL

Founded in 1936, Nanjing maternal and child health hospital has developed into a national-level Baby-Friendly Hospital and the first Grade-A Tertiary Maternity and Child Health Care Hospital in Jiangsu Province.The Dingjiazhuang New Campus consists of six departments, fully safeguarding the health of mothers, infants and women.German COSO sanitary ware provides users with a comfortable health-care experience.The water outlet of the basin faucet is precisely calibrated to deliver stable and gentle water flow, avoiding splashing caused by excessive water speed.The matching basin features a smooth surface for easy cleaning, which is critical to maintaining a hygienic environment.The toilet seat conforms to ergonomic curves, making it ideal for postnatal women and greatly reducing pressure from prolonged sitting.Its well-designed curve also fits children, offering comfortable use for people of all ages.The scientifically designed grab bar on one side allows patients to gain support easily, ensuring safety for those with limited mobility.The shower head has a large coverage area with even and fine water flow, enabling patients to enjoy a comfortable shower and relax both body and mind.Focusing on bathroom safety in medical institutions, German COSO develops humanized sanitary solutions tailored to the needs of healthcare environments, delivering comfortable and healthy bathroom experiences for users even in hospitals.

FENGCHENG HEALTHCARE CENTER, JINCHENG

Jincheng's age-friendly hotels have become a shining gem in the city with their distinctive architectural styles and elegant environmental design.Most of these hotels are nestled among mountains and rivers, far from the hustle and bustle, making visitors feel like in a paradise.With its philosophy of healthy sanitary ware, German COSO Bathroom brings visitors a brand-new experience.Every bathroom space is elaborately designed, focusing on both practicality and artistic beauty.

BEIJING NATIONAL STADIUM (BIRD'S NEST)

Located in Beijing's Bird's Nest, Yuanhang Tianmeng Technology Center takes aerospace technology as its core, creating an immersive popular science exploration space that highlights a sense of the future and humanistic care. COSO has customized the exclusive "Tianzhou Liuyun" sensor faucet for the venue, inspired by aerospace rockets to fit the venue's technological texture. The intelligent touch-free water outlet design is highly water-efficient and more in line with the needs of public scenarios.

At the same time, it has created a comprehensive barrier-free bathroom solution, equipped with ergonomic grab bars, light-intelligent toilets and baby care facilities, covering all age groups, ensuring safety, convenience, thoughtfulness and comfort. With German precision engineering, technological design and humanistic care, COSO empowers national-level landmark public spaces, builds a solid sense of security for every exploration journey, and lets technology and warmth go hand in hand.
