GLAM
SERIES

THE DELICATE CRAFT OF THE BUZZER HANDLE MOVES UP AND DOWN, LIKE A DJ'S MIXER,MAKE EVERY CONTACT WITH YOU EXCITING AND WONDERFUL.

HOMMIZATION

THE BATHROOM THAT
AWAKENS OUR SENSES.

ELEGANCE

EXTREME BEAUTY AND
ELEGANCE, COMBINATION
OF INTELLIGENCE AND
PERFECTION, PROFOUNDNESS
AND NOBLENESS.

ROMANTIC

ROMANTIC AND WISDOM

ELEGANT IN LOOK,
AND WISE IN HEART.

AND METICULOUS DESIGN,THE INSIDE MEANING IS NO LONGER DEEP,
WITH THE OUTSTANDING SELFHOOD FULLY EXPRESSED.

METICULOUS
DESIGN

ELEGANCE

CALMNESS IS THE ONLY VERVE OF LIFE，LIVING OUTSTANDINGLY，LIVING WITH ELEGANT RHYTHMS，RESPLENDENT CLEAN STREAM FLOWS AT HOME .

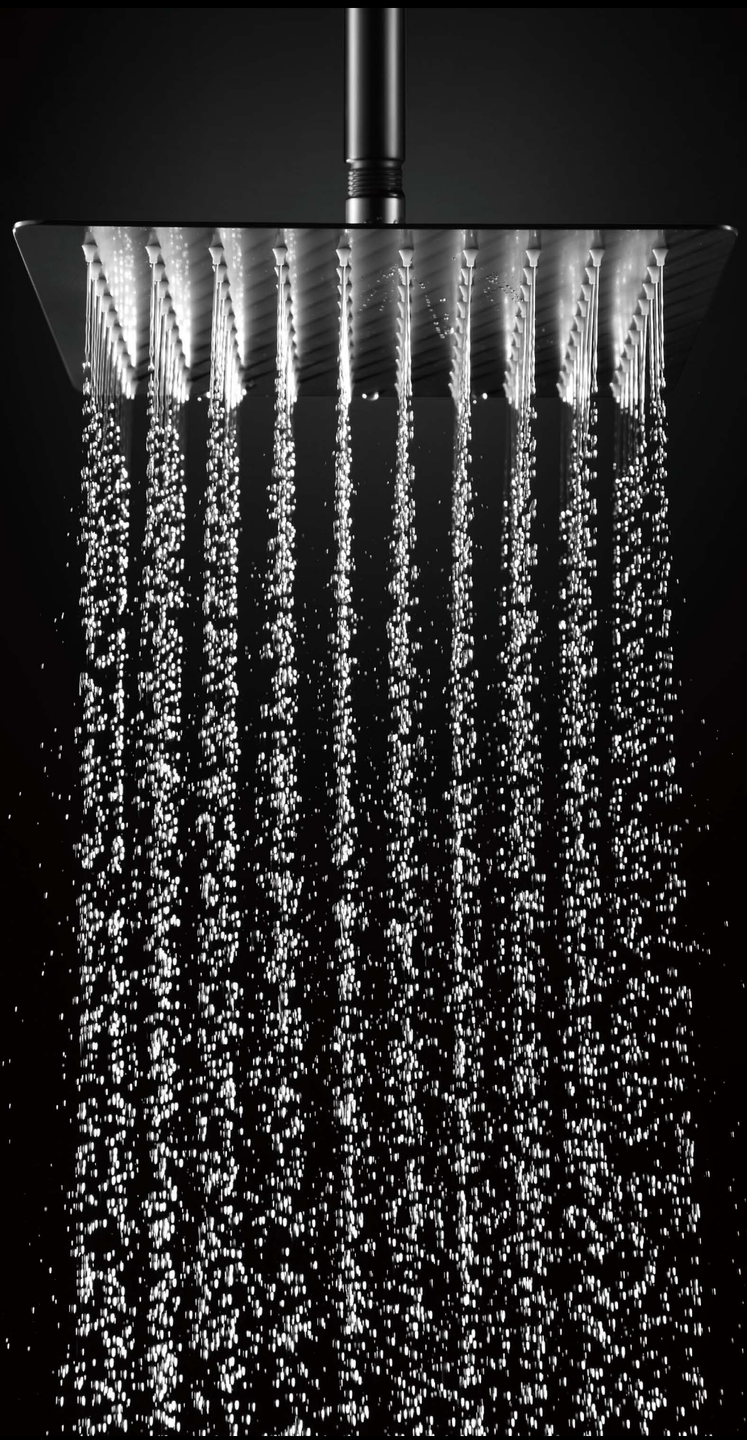

In the romantic world, it is wisdom that gives me power and courage, to lightly uncover the fog. whether is brilliant or not, i never complain, only because i am to kee this reserved and pure heart.

ROMANTIC AND WISDOM

MBLE

There is a kind of beauty,
Always bursting in the unconscious
touch, Space reaching such
realm is also superb,
This is textural experience,
in only a moment, Kind of
textures, kind of unique life!

PROSPEROUS TANG SERIES

Asia ladies are from respectable families, and also revealed the men with gentle and cultivated. The bone has revealed the Chinese style, From the inside out, is flickered the wisdom and elegance of the Chinese culture for several thousands of years, as good as the splendidly dazzles of the arts.

COSO

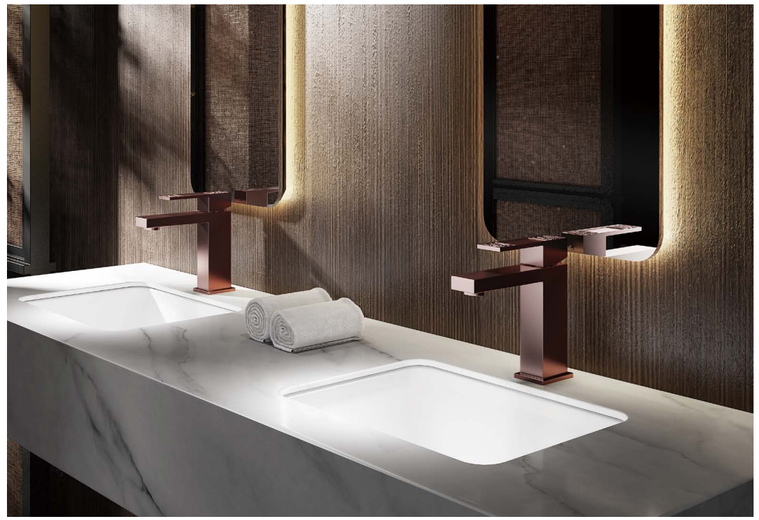

WISDOM

Elegance came from the accumulation of wealth by wisdom. Luxury subverts the traditional cognition and aesthetics, it advocated different art of lives,
The integration of these two products was splendidly decorated.Behind the aesthetics, the people attitude towards life is hidden.

LANE
SERIES

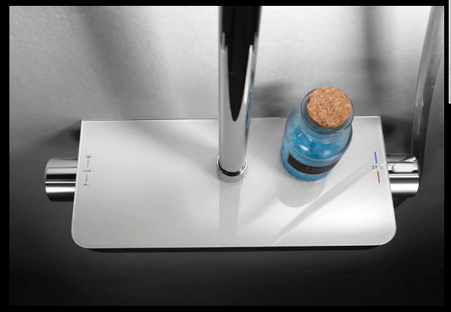

ELIMINATING VANITY, MADE OF NATURAL MATERIAL,
WHICH REFLECTED THE LOW-KEY AND PURE LIFE ATTITUDES.
COSO BRINGS THE CONVENIENT EXPERIENCE FROM HIS
DESIGN, WHICH ENSURE YOU ENJOY THE COMFORT FROM THE
BATHROOM SPACE

Just like the artwork like sculpture in the bathroom, apply contracted and clear linear design and a variety of exterior modelling to model beautiful scenery. The soft water is impressive.

ARTWORK LIKE

WATERFALL

Bibcock resembles broad grass leaf, current is like natural waterfall, bath crock is like quiet lake, fittings is reflecting the mutual influence between nature. The bathroom is a place of meditation.

CHARMING

It is natural and elegant, creating a
charming elegant temperament for the space.

CONFIGURATION

E-BOX

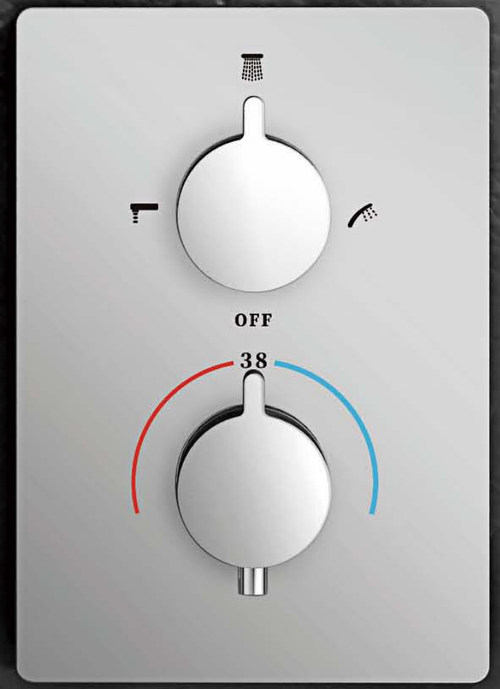

The e-box is the core of the concealed shower set, combined with the installation of the concealed water pipe, and the main body is placed in the wall, only the control panel is exposed, which adds beauty and saves space.

MAIN
BODY

The concealed shower has two different display shapes, one is round and one is rectangle, you can choose the shape you like. The control panel is minimalist in design, combining simple lines with metallic colors, so that each control panel perfectly matches the COSO concealed shower.

HAND HELD SHOWER

HAND HELD SHOWER
EFFECT OF WATER

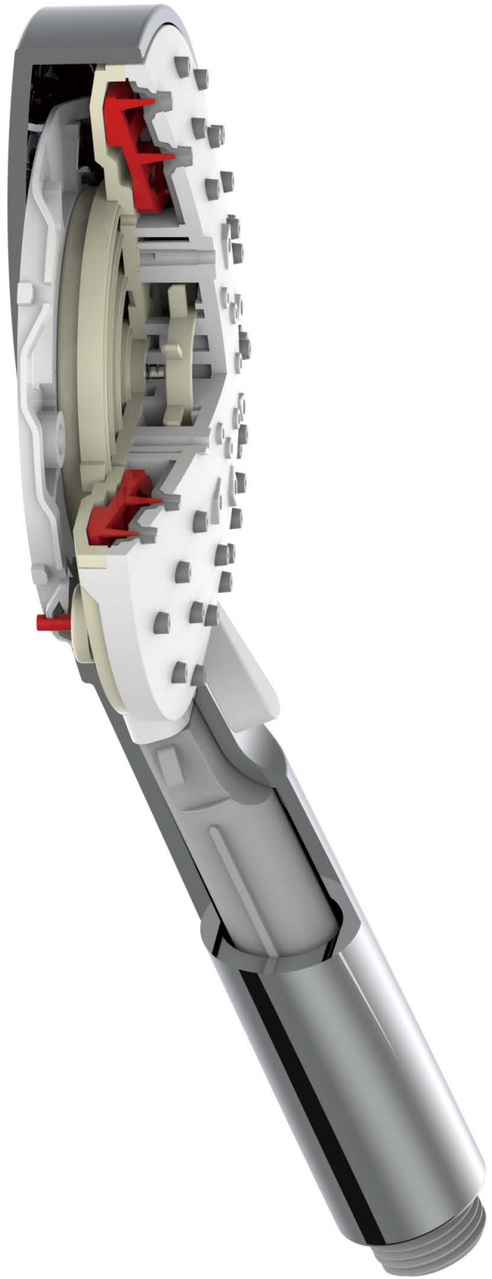

HAND HELD SHOWER
CHARACTERISTICS

TWO WATER PIPES DESIGN

The gap between the surface of the hand shower and the hot water flowing inside is formed, and the handle is not too hot even after a long time hot water shower. Moreover, the water flow does not pass through the electroplating body, effectively avoiding water pollution caused by electroplating.

THE NOZZLE OF THE HAND SHOWER IS MADE OF ENVIRONMENTALLY FRIENDLY LIQUID SILICONE MATERIAL

Using this material, the water is smooth and not easy to block, and the dirt can be removed with a single touch, which is safe and durable.

SWIRLING MASSAGE SHOWER MODE

With a mechanical rotating structure, the powerful massage water column rotates back and forth, making a good massage effect on the body.

CRATER DESIGN

The exterior design of the crater is a spiral water channel structure, like the dark and swell under the calm waves.

VERTICAL COLUMNAR WATER

Straight hollow water design, the water flow is under pressure, and the water falling on the human body is as comfortable and relaxing as massaging the human body

LIP STYLE SWITCH BUTTON

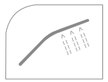

Smooth and soft,ergonomics, easy to operate, smart appearance, let you feel natural and comfortable

TWO WATER PIPES DESIGN

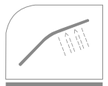

The gap between the surface of the hand shower and the hot water flowing inside is formed, and the handle is not too hot even after a long time hot water shower. Moreover, the water flow does not pass through the electroplating body, effectively avoiding water pollution caused by electroplating.

TOILET
SYSTEM

SEEING YOU IN A SNOWY, WHITE, AND BRIGHT WORLD,
TO SEE YOUR BEAUTY, TO SEE THE CHARM OF YOUR
YOUTH, ROMANCE, AND LUXURIOUS PERSONALITY
ARE PRESENTED EQUALLY.

WITH SPOTS AND CORNERS THAT ARE HARD TO REACH FOR CLEANING ON THE TOP OF THE INTERIOR, THE SMART TOILET ALLOWS YOU TO EXPERIENCE A WHOLE NEW LEVEL OF LUXURY, COMFORT AND CLEANLINESS.

SMART

WASHING

Produces a powerful flush and cleans the toilet thoroughly without any blind spots.

SMART TOILET FOR DETAIL CONTROL AND
PIONEERS. ELEGANT APPEARANCE COMBINED
WITH INTELLIGENT TECHNOLOGY, LEADING A NEW
INTELLIGENT LIFE.

INTELLIGENT
LIFE

INTELLIGENT TOILET

DECOMPRESSION FILTER SYSTEM

Using German technology, water flushing system forms the good water pressure, which can lengthen the service life of the machine.The water pressure is cleaner and more stable through the filter system,

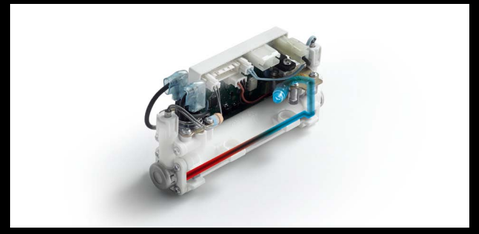

SUPER HYDROCONE TECHNOLOGY

The latest 3D super hydro-cone flushing technology is spraying the water from the depth of the toilet, the large diameter of siphon, only needs 1KG water pressure, to achieve the perfect flushing affection.

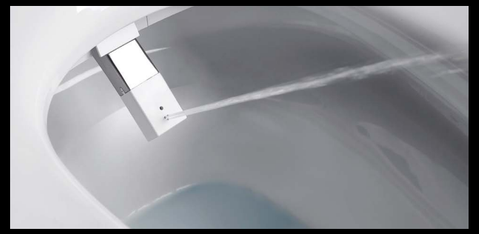

DECOMPRESSION FILTER SYSTEM

Built-in a safety electrics heating ring, with Three levels of temperature options according to your personal preference, to adjust the most suitable temperature for yourself. It is simple and convenient, more clean than the ordinary seat cotton pad.

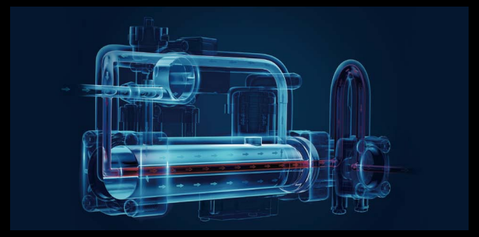

DECOMPRESSION FILTER SYSTEM

The latest three-dimensional super vortex siphon flushing technology, first from the edge of the seat toilet flush hole spray a small amount of water to flush the dirt, and then inhale air pressure to help flush the dirt, not only better water saving but also clean.

DECOMPRESSION FILTER SYSTEM

Strong washing with foaming style, air inhalation and mixing it with the injected water, washing with the strong and weak alternately in the water pressure, effectively promoting the blood circulation of the buttocks;

CONSTANT TEMPERATURE OF CERAMIC +ALLOY ABS HEAT

Using German technology, water flushing system forms the good water pressure, which can lengthen the service life of the machine.The water pressure is cleaner and more stable through the filter system,

DEODORISATION SYSTEM

The working principle of high-tech automatic accelerant deodorization device is that the stink is filtered through the accelerant deodorization technology, and the air in the toilet is kept fresh and odorless at anytime.

WARM DRY

Intelligent warm air drying is made your buttocks refreshing and healthy. While starting the automatic flushing system, the buttocks are more refreshing after cleaning, keeping a beautiful mood after toilet.

MICROWAVE INDUCTION TECHNOLOGY

Accurating the identification of targets through the advanced microwave induction technology, the automatic induction of the switch cover is more a ecu rated, at anytime before you step.

BILATERAL DAMPER SYSTEM

The double side damping system can better control the lid to turn over smoothly, buffer the fall, effectively reduce the wear of the motor, increase the service life, and achieve a stable working state.

Toilet rough-in: 300mm

INTELLIGENT
WALL-MOUNTED TOILET

INDUCTION FLIP

Built-in microwave induction module, identify the user's approach, automatically open the cover for users to use.
Usage scenario: Users go to the toilet

Flip and turn with the remote control hanging on the wall (the button is located above the remote control, which is also convenient to use when hanging on the wall)
Use scenario: a men urinate

Damping slow down: after detecting the user's departure, the seat cover seat ring will be
automatically closed, and the seat cover seat ring will fall slowly, no longer worrying about the annoying noise affecting the family.

ULTRAVIOLET WATER STERILIZATION

Urban tap water through the pipeline inevitably bacteria breeding, for the dynamic killing of bacteria and other microorganisms in the flow of water, cleaning the user's private part of the water into the machine will be ultraviolet light, to ensure that users in the cleaning of the water is clean and assured.

DETACHABLE NOZZLE

The new upgraded 3D arc stainless steel spray rod can not only effectively prevent fouling, but also improve the cleaning Angle, provide a wider cleaning area and cleaning comfort.
Convenient detachable ingenious nozzle design, convenient for daily toilet cleaning and regular replacement, to solve the problem of scale blockage.

STRONG WARM AIR DRYING

By improving the performance of the drying device to improve the drying efficiency, ordinary drying time reduced by 50%, and improve the use experience, really solve the pain point of users.

NOZZLE STERILIZATION

280nm wavelength, effectively remove bacteria and dirt, escherichia coli, staphylococcus aureus, candida albicans elimination rate up to 99%, to avoid cross infection, give meticulous care to family.

ANTIBACTERIAL SEAT

Adopting silver ion antibacterial material certified by SIAA international authority, it has remarkable antibacterial and bacteriostatic effect and keeps the seat ring clean for a long time.

MULTI-FUNCTION CLEANING

Buttock wash, woman wash, reciprocating cleaning, nozzle self cleaning, cold and hot massage.
A variety of different cleaning modes are available to meet the needs of the whole family.

SEAT HEATING

Sitting down is comfortable and reassuring, with built-in sensors that can detect the state of sitting down in time, and when you sit down, you will be surrounded by the warmth of the toilet. Adaptive seat temperature adjustment and sensing skin temperature, prevent low temperature scald.

AUTOMATIC DEODORIZATION

After the user sits on the seat, the deodorizer automatically opens, and the built-in activated carbon absorbs the odor, and then catalyzes the decomposition of the odor through the catalyst on the surface.
No replacement, no maintenance costs; Durable and efficient, do not worry about time and effect attenuation.

FLUSH MODE

Automatic flushing from the seat: the machine will realize automatic flushing function after the user leaves the seat for 6s after going to the toilet

(Because the machine and water tank are separated, many competing products do not have this function)

Dry flushing: Because dirt will fall into the water during the cleaning process, odor will be emitted after drying, so when using intelligent cleaning (namely cleaning + flushing + drying), when the cleaning is finished, warm air drying will be automatically flushed.

Size flushing: intelligent identification of size flushing: when a woman goes to the toilet, it will automatically determine the size of flushing; Manual control: When a man urinates, he can achieve the size flushing function through the panel mounted on the wall.

TOILET
FUNCTION

360°FLUSHING SYSTEM

The latest launch of the double-hole washer toilet is flushing by the double holes at the same time, produce a strong double spiral vortex flow instantly. 360° flushing can cover the silent when flushing the edges of the inner wall,turbulent erosion force, overturning the previous way of flushing. There is no hiding place for dirt and too achieve a qualitative leap.

NANO SELF-CLEANING GLAZE

The double protections of ultra smooth surface and the ion isolation eliminate the dirt that contains in the gap. Eliminating the possibilities of fouling adhesion and bacterial survival thoroughly, clean and convenient, durable anti fouling and bacteria control.

STRONG INSTANT DRAIN PIPE

The double protections of ultra smooth surface and the ion isolation eliminate the dirt that contains in the gap. Eliminating the possibilities of fouling adhesion and bacterial survival thoroughly, clean and convenient, durable anti fouling and bacteria control.

SLOW DOWN THE COVER PLATE

Equipped with high quality toilet seat cover, and it is convenient to disassemble and assemble, and has the function of slowdown. The application of urea formaldehyde material makes the high surface gloss, not easy to fade, high hardness, not easy to scratch.

DOUBLE LEVELS OF ENVIRONMENTAL PROTECTION AND WATER SAVING

The traditional 3L/6L toilet is upgraded to the 3L/4.8L of the super water saving toilet, and the drain valve is increased to 3 inches. Its flushing speed is increased upto2.0-2.8L/s, is higher than the 2 inches drain valve, which only has 1.7L/s. This design allows the water to flow quickly over the waterway, which results in a strong siphon effect.

FIVE-STAR OF HIGH QUALITY WATER FITTINGS

Supported by a high standard water system, innovative structural design, unparalleled product quality, excellent system performance, each design has gone through 250,000 limit tests, no water leaking.

SIGNGLE HOLE OF INDEPENDENT POLLUTION DISCHARGE

More close to the design of human nature, uniform and solid wall, no gap inside. Eliminate microleakage in the process of use, clean and hygienic.
